

MANAGERS SURVEY

NAPA Arts in Care Homes is carrying out a survey to find out how we can better support embedding arts and creative activities in care settings.

This survey is confidential and we will not share any personal information with third parties.

By 'arts and creative activities' we mean both participative arts activities where one actively does something such as painting, dancing or writing poetry and non-participative arts and cultural activities such as watching a film, listening to music or going to the theatre. We are interested in all forms of arts, creativity and culture including everyday creative activities such as baking and knitting.

We ask the name and location of your care home so that we can count how many care settings take part and know what the geographical spread is.

Name of care setting:

Location:

Length of experience in care sector:

Q1: What activities do you currently offer your residents?

Q2: How do you know what activities your residents want to do?

Q3: Do you think working towards a daily creative offer for all your residents is realistic, if not what would be realistic for you? (Please tell us more)

YES NO

(Please give reasons for your answer)

Q4: What would help you achieve this, and do you think more training and/or resources are needed? (please tell us more)

Q5: What are the barriers?

Q6: Can you tell us how creativity supports wellbeing in your care setting?

Q7: What arts and creative activities are most effective in your care setting for people living with complex needs?

Q8: Would digital creative programming and content help you achieve your goals for a creative offer in your care home? (Please tell us about this)

Thank you very much for your responses. NAPA is very interested to hear what you have to say and grateful for your contribution to our consultation.
